

Ever needed a complete medication list? It's easy to find in MyChart.

Click the Medication icon on the home workspace.

See details for each medication, including the prescribed dosage, instructions, and the physician who prescribed the medication.

If you need a medication refilled and are using a pharmacy within the Genesis system, MyChart makes it easy.

### **Request a Refill from your Current Medication List:**

- Click the Medications icon from the home workspace.
- Click the medication to be refilled. In the medication details, the number of refills is listed, along with the pharmacy where the medication will be refilled. Add comments as needed.
- Confirm the pharmacy the medication will be sent for refill.
- Click Submit

You will receive a message in your MyChart Messages when your prescription refill is processed.
